

## **General (trivial) point for report preparation you should check yourself.**

**Pictures** must have legend, axis, be readable.

**Formulas** – all terms to be defined and discussed.

**Referencing** anything that you did not work out yourself and present with the text.

**English** to be good.

**Logic** structure.

**Spent effort** to describe things to others who don't know it yet.

**Use straight** sentences (not too much “might”, “can be”)

**No bla bla bla ...**

**Abbreviations** to be explained.

**Give clear** messages.

**Do not repeat** too much.

**Clear figure/table** caption – must be self-explaining.

**Train yourself** with talks at PPS, research seminars at HU ...

**Carefully study** systematic errors – separate section in thesis.

**Write the Conclusion first.** This will give you perspective of how to organize your paper/report to support the message you are trying to convey.
