

# Minutes of PITZ Physics Seminar, 26.03.2020

Project: PITZ

Participants: N. Aftab, M. Krasilnikov, A. Lueangaramwong, G. Georgiev, X.-K. Li, F. Brinker, P. Boonpornprasert, M. Gross, O. Lishilin, T. Weilbach, J. Good, H. Shaker, G. Shu, H. Qian, A. Oppelt, F. Stephan, N. Chaisueb, G. Vashchenko, E. Castro-Carballo, M. Vogt, R. Niemczyk

## Agenda:

- 1) AoB
- 2) Talk by H. Qian

## Results:

- 1) Pandora will show warning at 1uSv radiation level, to make crew aware of increased radiation level. Warnings don't have to be written down in Betriebsbuch
- 2) Prepare measurement program well
- 3) All people, which are in the control room (during shifts) have to be documented (name and time)
- 4) Going through new hygiene rules during shift operation
  - a. Use of cleaning material (but seems to be unsuitable)
  - b. New keyboards being ordered, with covers
  - c. Frank: Previous shift cleans their used keyboards/mices, new shift also cleans keyboards (which dried before) for their own use
  - d. Use of masks during shift
  - e. Keep distance during shift and shift operation
  - f. Kitchen is closed for everyone but shift crew
  - g. Microwave to be cleaned after **each** use (voluntarily before each use)
  - h. Rolling schedule won't be used: Instead, 5 shifts straight, then change (to be implemented by Hamed)
  - i. When feeling ill: Contact Schichtabsicherung, so they take over your shift (as usually)
- 5) Talk by Houjun
  - a. Several proposals done
  - b. Talk not fully finished – second part tbd at later point

## Next steps:

What is to be done ?	By whom ?	Until when?	Done on
Note on kitchen: Shift crew only	??	Before next run	

Protocol prepared by  
R. Niemczyk, 26<sup>th</sup> March 2020  
(Name, Date)
