Minutes of RESULTS, PITZ Physics Seminar, 2017-11-23

Project: PITZ
Participants: almost everybody

1) Agenda
1. Davit: PITZ DAQ
2. 2018 conference discussion

2) Results:
1. How long is long delayed call? 19 ms, because 20 ms update is for IL
2. How is the date synchronization realized between different modes?
3. Does event based DAQ work as we expected?
4. Why the data is lost?
5. Igor will work with Davit to summarize the required data from gun that cannot be lost.
6. An automatic LILI plot print tool will be developed.
7.
