

Minutes of RESULTS, PITZ Physics Seminar, 27.09.2016

Project: PITZ

Participants: M. Krasilnikov, F. Stephan, M. Groß, C. Saisa-Ard, Q. Zhao, O. Lishilin, G. Loisch, Y. Chen, H. Qian, X. Li, I. Isaev

1) Agenda:

- a. P. Boonpornprasert Design consideration of CTR/CDR Station at PITZ
- b. AOB: 11.10 XFEL presentation at PITZ

2) Results:

- a. Screen station to be used: PST.Screen(s), currently PST.Scr2
 - Short Gaussian PC laser + vb with CDS, 5MeV short bunches
 - Rough CTR station design, components, order list
 - Timeline – beginning of the next year

What is to be done?	By whom?	Until when?	Done on
Check emittance of the beam at the screen → angular divergence?	Prach
