

Minutes of RESULTS, PITZ Physics Seminar, 26.03.2015

Project: PITZ

Participants. G. Vashchenko, M. Bakr, G. Kourkafas, P.Boonpornprasert, Q. Zhao, M. Krasilnikov, D. Malyutin, A.Oppelt

Agenda:

- 1) J.Schultze – Teaching on Water Cooling System
- 2) J.Schultze – Teaching on Vacuum Interlock
- 3) AOB – Short RC

Results:

1. Overview and future development of water cooling system were presented.
 - Introduction to stabilization mode
 - Introduction to water system infrastructure, tanks, interlocksystem, cooling system, control system
2. Introduction to functions of the vacuum interlock

Next steps:

What is to be done ?	By whom ?	Until when?	Done on

Protocol prepared by
Prach Boonpornprasert, 26.03.2015
